

TITLE 10: LOCAL LAWS
DIVISION 2: SECOND SENATORIAL DISTRICT (TINIAN, ETC.)

§ 2592. Casino Layout.

(a) A casino operator shall:

(1) ensure and certify that visibility by the surveillance department throughout any gaming area of the casino, including private gaming rooms, wherein games are being played is clear and unobstructed;

(2) in addition to the casino operator's surveillance department, provide a separate surveillance room with complete surveillance equipment approved by the Commission for the Commission and its inspectors to independently monitor the casino operations;

(3) submit for the approval of the Commission a floor plan in connection with the casino drawn to a scale satisfactory to the Commission indicating in detail the placement of gaming tables, count rooms, cages, private gaming rooms and all other associated facilities;

(4) submit a diagram of the closed-circuit television system indicating camera positions as they relate to the floor plan and full information indicating heights of cameras from gaming tables and their scope of coverage; and

(5) submit a plan of the catwalk surveillance system indicating the positions of communication facilities.

(b) A casino operator shall not operate a casino having the placement of gaming tables, count rooms, cages and other associated facilities other than in accordance with a floor plan.
