

TITLE 2: NATURAL RESOURCES
DIVISION 7: BUILDING AND ZONING CODES

§ 7116. Testing to Prove Compliance.

(a) Whenever there is insufficient evidence that any material or any construction method meets the requirements of this safety code, or in order to prove claims for alternate materials or methods of construction, the building safety official may require tests and proof of compliance, to be made at no expense to the Building Safety Division, by an independent agency or laboratory approved by the building safety official.

(b) The tests shall be performed in accordance with generally recognized standard test procedures for the proposed use. In the absence of such standard test procedures, the building safety official may specify the test procedure.
