

TITLE 3: HUMAN RESOURCES
DIVISION 5: PUBLIC SAFETY

§ 5437. Chemical Tests and Analysis of Person's Blood.

The following will apply with respect to a chemical test and analysis of a person's blood, urine, or breath, other than a preliminary chemical breath analysis:

(a) The amount of alcohol or presence of a controlled substance, or both, in an operator's blood at the time alleged as shown by chemical analysis of the person's blood, urine, or breath is admissible into evidence in any civil or criminal proceeding.

(b) A sample or specimen of urine or breath shall be taken and collected in a reasonable manner. Only a licensed physician, or a licensed nurse or medical technician under the direction of a licensed physician, qualified to withdraw blood and acting in a medical environment, may withdraw blood at the request of a peace officer for the purpose of determining the amount of alcohol or presence of a controlled substance, or both, in a person's blood. A qualified person who withdraws or analyzes blood, or assists in the withdrawal or analysis, in accordance with this part is not liable for a crime or civil damages predicated on the act of withdrawing or analyzing blood and related procedures unless the withdrawal or analysis is performed in a negligent manner.
